## **DETAILED ACTION**

### ***Remarks***

This Office action is responsive to applicant's amendment filed under 37 C.F.R. § 1.116.

### ***Claim Rejections - 35 USC § 112***

The rejection of claims 1-4, 6 and 7 under 35 USC § 112, first paragraph has been withdrawn.

### ***Claim Rejections - 35 USC § 103***

The rejection of claims 1-4 and 6 under 35 U.S.C. 103(a) based on Steck et al. and Matsukawa et al. has been withdrawn.

This ground of rejection has been withdrawn in view of the present amendment to the claims now positively reciting a gap formed between the separator and the membrane electrode assembly.

### ***Allowable Subject Matter***

Claims 1-4, 6 and 7 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or suggest the instant invention regarding a gap formed between the separator and the membrane electrode assembly having a seal formed by applying a liquid thermosetting sealing agent into the gap.

Art Unit: 1745

The closest prior art, that to Steck et al., precludes a gap from being formed between the separator [22, 24] and the membrane electrode assembly [30] insofar as the final assembled structure results in compression of the gasketing material [12, 14] to effectively form a seal. See col. 5 line 27-33 and Figures 3 and 4, appended herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
